

FRANCHISE WEDGE NUT

CEASHW/4103

USAGE

Used in ribbed decking and cast-in dovetail slot. Our zinc alloy wedge nuts are suitable for all light duty suspension applications using drop rods. For example pipework, ductwork, cable tray, trunking, lighting etc.

SELECTION

Different shapes for different profiles.

It is worth trying to ensure the version used matches the profile of the slot or decking concerned, use dimensions below, otherwise either the wedge nut will be impossible to insert or the load capacity will be very low.

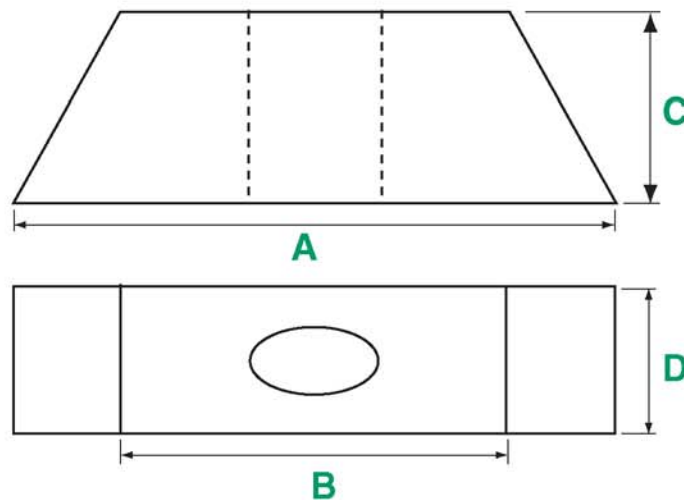

If in doubt wedge nuts can be load tested on site to check there is sufficient safety margin.

SPECIFICATION

M6 - 4 versions

Mini, Mini-mini, standard and Ribdeck (R60)

M10 - 1 version

	A	B	C	D
STANDARD	25	19	13	10 or 13
