

Environmental Policy

CEP Holdings Limited and its manufacturing subsidiaries supply a wide range of exterior claddings and suspended ceilings, plus ancillary products and systems.

We have manufacturing operations in the UK (Stafford, St Helens & Hastings). In all of our operations we aim to recognise the potential environmental impact of our processes and products.

We at all times operate within requirements of appropriate environmental laws. In addition we endeavour to minimise negative effects and maximise positive effects on the environment.

In all of our activities we seek to:

- **Promote the use of environmentally friendly processes and materials.**
- **To aim to use only sustainable natural resources.**
- **Achieve continuing improvements in environmental performance over and above regulatory and legislative requirements.**
- **Raise the awareness of environmental issues within our businesses.**
- **Where possible satisfy local needs using local resources.**
- **Develop and promote environmentally friendly products and architectural solutions.**

This policy is approved by the directors of CEP Holdings Limited.
